WHAT THIS IS ABOUT

The workshop will discuss safety topics and potential dangers of highway construction and maintenance. It will teach the basics of OSHA standards for highway construction safety and the leading causes of fatal events. The class will “become OSHA inspectors” as real world fatal events will be analyzed for the cause, contributing factors, and potential corrections/recommendations.

WHO SHOULD PARTICIPATE

Local and state government employees, consulting engineers, and others with an interest or involved in the highway construction safety and maintenance.
